SUMMARY

Third-year B.Tech CSE (AI & ML) student with a 9.15 CGPA. I build AI projects in Python and am currently a Software Engineering Intern at UdyogahConnect.

SKILLS

Languages: Python, Java, C, JavaScript

AI / ML: NLP, Sentence Transformers, scikit-learn, LLM APIs

Web: HTML, CSS, React, FastAPI, Streamlit

Tools & Database: Git, GitHub, VS Code, MySQL

PROJECTS

AI Resume Analyzer | Python, Streamlit, NLP, Groq API GitHub

- Web app that scores how well a resume matches a job description and shows missing skills.
- Uses an AI model to give feedback and rewrite the resume for the job.

AI Copilot for Software Engineers | React, FastAPI, Python GitHub

- Full-stack assistant that helps developers explain, write and debug code using an AI model.

EXPERIENCE

Software Product Engineering Intern | UdyogahConnect Technologies Jul 2026 – Present

- Working on a business software platform across web, mobile and AI features.

AI Intern | Infosys Springboard Feb 2026 – Mar 2026

- Worked in a team on an AI system that creates and categorizes support tickets using Python and NLP.
